Let’s make this brief

We get a lot out of what you put in here.

Much like nachos, GIFs, and guests on Jerry Springer, we ask that you err on the side of oversharing. Please contact your Customer Success Manager if have any questions about this creative brief.

ⓘ

Standalone
Lives on an independent URL. Flexible width/height. Supports pinned objects.

Embedded
Lives in an existing website/ CMS. Defined width. No pinned objects.

*If you are embedding a Ceros experience within your site, it's important to know the dimensions of the iframe area it will be placed into so we can design with those constraints in mind. If you don't know these dimensions, you can always ask your web team or follow the steps in the "Embedded" section here.
